

Best for the Average  
Performance Horse

# Achiever™

Clean Fuel Ration Balancer

Daily Dose Equine® is always innovating!

## No Soybean Meal, No Wheat, No Corn, No Molasses

Achiever™ is crafted for the average horse, with premium roasted oats and barley at its core—no fillers, no junk.

- Premium roasted oats & barley** – for natural energy
- Timothy & alfalfa** – for quality fiber and digestive function
- Canola oil** – clean fat with a 2:1 Omega-6 to Omega-3 ratio.

This formula mirrors our FreeStyle Performance (Trail Mix) blend, but in a balancer format. It also is gut friendly with edible clay and sodium bicarbonate to buffer excess stomach acid.

### Simple Feeding. Strong Results.

Feed 2.1 lbs daily per 1,100 lbs of body weight for horses in light work. Always offer clean water and good forage.

### No GMOs, No Ionophores, No Nonsense.

Achiever™ keeps it simple, clean, and effective—so your horse feels good and performs better.

## WHY NON-GMO (genetically- modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
