

**Best for Performance Horses that  
Need Targeted Nutrition & Safe  
Starch Calories**

# Timothy 'n Teff T 'n T

Daily Dose Equine® is always innovating!

**T'nT: Built for Horses with Special Needs**  
Specially formulated for **metabolic and Cushing's horses**, T'nT delivers safe, supportive nutrition with a focus on digestive and metabolic health.

- **Low NSC (non-structural carbohydrates)**
- **No soy, no corn, no wheat, no molasses**
- **Teff, timothy & alfalfa hay base** for slow-burning energy
- **Peas, sunflower, and flax** for amino acids and coat health
- **Edible clay & sodium bicarbonate** to soothe the stomach
- **250mg/lb Chromium Propionate**

A smart solution for horses who can't afford nutritional mistakes.

**Feeding Guidelines:**  
Feed **4 to 5 lbs. per 1100 lbs. body weight per day** for a horse in light work. Adjust according to activity level and individual needs. Always provide: Fresh, clean water, Free-choice forage.

**Whole Food. Whole Horse.**  
Founded in 2006, Daily Dose Equine® is committed to helping horses look and feel their very best—naturally. All of our feeds are soy-free, use only whole-food ingredients, and are made at a **non-GMO, ionophore-free mill in Lebanon, PA.**

## WHY NON-GMO (genetically-modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
