

**Best for Seniors with dentition issues.  
Not recommended for metabolic horses.**

# Performance Senior+

Daily Dose Equine® is always innovating!

## No Soy, No Wheat, No Corn, No Molasses

We developed Performance Senior to address the needs of older horses that are having trouble eating due to tooth loss. The base of Performance Senior+ is ground oats and barley to supply needed calories to their diet. To this we add some timothy hay pellets, peas, sunflower and flax. Along with the vitamin/mineral mix, we add edible clay and sodium bicarbonate to help neutralize stomach acid. The fat in the product is Canola Oil for a 2:1 Omega 6 to 3 ratio.

Feed at a rate of 4 to 5 lbs. per 1100 pounds of body weight per day for a horse in retirement or low work. Always provide fresh water and forage.

Performance Senior+ is manufactured at a non-GMO, ionophore-free mill in Lebanon, PA.

Crude Protein.....	13.0%
L-Lysine.....	1.0%
Crude Fat (min).....	15.0%
Crude Fiber (max).....	13.0%
ADF.....	25.2%
NDF.....	34.0%

Roasted Oats, Roasted Barley, Timothy Hay, Peas, Alfalfa Meal, Flax, Sunflower Seed, Pressed Canola Oil, L-Lysine, Monocalcium Phosphate, Salt, Calcium Carbonate, Magnesium Oxide, Montmorillonite Clay, Alfalfa Meal, Magnesium Carbonate, Sodium Bicarbonate, Dried Kelp Meal, Diatomaceous Earth, Calcium Sulfate, Vitamin E Supplement, Sulfur, Choline Chloride, Soluble Kelp, Soluble Humates, Humates, Manganese Sulfate, Manganese Proteinates, Zinc Sulfate, Zinc Proteinates, Sodium Selenium, Vitamin A Acetate, Vitamin D<sub>3</sub> Supplement, Vitamin B-12 Supplement, Zinc Oxide, Biotin, Copper Sulfate, Dried Kelp, Calcium Sulfate, Copper Proteinates, Niacinamide, Riboflavin, Pyridoxine Hydrochloride, Calcium Pantothenate, Ethylene Diamine Dihydroiodide, Cobalt carbonate, Thiamine Mononitrate, Folic Acid, fermentation products of *A. oryzae* (Alpha-amylase & Protease), *B. subtilis*, *L. acidophilus*, *B. thermophilum*, *B. longum*, *E. faecium*, *A. niger* (Lipase), *T. longibrachiatum*, Mineral Oil.

## WHY NON-GMO (genetically- modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
