

Balanced Nutrition for the Metabolic Performance Horse

FireFighter™

Ration Balancer

Daily Dose Equine® is always innovating!

No Soybean Meal, No Wheat, No Corn, No Molasses

Firefought™ Fire-fighter is powerful, no-nonsense feed designed to support metabolic function, digestive health and performance—all in one simple, clean formula. A sister product to Carb-buster, Firefighter blends ground Timothy with whole pelleted Alfalfa hay to deliver superior fiber and gut support while keeping NSCs low. We've added chromium to support insulin regulation and help reduce cresty necks—making this formula ideal for horses prone to metabolic challenges.

- **Timothy & alfalfa** – Premium quality fiber and digestive health and steady energy.
- **Canola oil** – clean fat with a balanced 2:1 Omega-6 to Omega-3 ratio to support skin, coat and metabolic function.
- Elevated, **balanced nutrition** elevated to feed the performance horse.

Simple Feeding. Strong Results.

Feed 2.1 lbs daily per 1,100 lbs of body weight for horses in light work. Always offer clean water and good forage.

No GMOs, No Ionophores, No Nonsense.

Firefighter™ keeps it simple, clean, and effective—so your horse feels good and performs better.

WHY NON-GMO (genetically- modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
