

Best for the Metabolic Performance  
Horse requiring low NSCs

# Carb-buster™

A Smarter Ration Balancer

Daily Dose Equine® is always innovating!

## No Soybean Meal, No Wheat, No Corn, No Molasses, No Grain

Carb-buster™ was specially developed to support the unique needs of the metabolic horse. Its base is premium ground timothy hay, fortified with essential vitamins, minerals, and chromium to promote a healthy metabolism, support weight management, and improve insulin sensitivity.

To further support digestive health, Carb-buster™ includes **edible clay** and **sodium bicarbonate** to help neutralize excess stomach acid. The fat source is **canola oil**, delivering a beneficial **2:1 ratio of Omega-6 to Omega-3 fatty acids**.

### Feeding Guidelines:

Feed at a rate of **2.1 lbs per 1,100 lbs of body weight per day** for a horse in light work. Always provide access to **fresh water** and **quality forage**.

Carb-buster™ is proudly manufactured in **Pennsylvania** at a **non-GMO, ionophore-free** mill.

Help your horse feel and look their best with **Carb-buster™**.

## WHY NON-GMO (genetically-modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
