

Best for Horses with Allergies

Infinity™

Daily Dose Equine® is always innovating!

Exciting News from Daily Dose Equine®!

We're thrilled to introduce our newest feed: **Infinity™** — a revolutionary option for horses with sensitivities. Infinity was carefully developed to support horses with allergies or intolerances to common ingredients like soybean meal, hay, flax, and more.

NO Soy. NO Flax. NO Hay. NO Wheat. NO Corn

The foundation of Infinity is **sugar-free beet pulp pellets**, lightly ground for improved digestibility. To this base, we've added **peas for protein, sunflower seeds** to support a healthy coat, and **pressed canola oil** to provide balanced fat with a **2:1 Omega 6 to Omega 3 ratio**.

- ✓ Made in a **non-GMO mill** in Lebanon, PA
- ✓ **Completely isolated** from all medicated feed lines
- ✓ Safe, clean, and focused on your horse's well-being

Feeding Guidelines:

Feed **3 to 5 lbs per 1100 lbs of body weight per day** for horses in moderate work. Always provide access to clean water and forage.

Energy Content: 2040 kcal/lb

Beet Pulp, Non-GMO Ingredients: Peas, Sunflower Seed, Pressed Canola Oil, L-Lysine, Monocalcium Phosphate, Salt, Calcium Carbonate, Magnesium Oxide, Montmorillonite Clay, Alfalfa Meal, Magnesium Carbonate, Sodium Bicarbonate, Dried Kelp Meal, Diatomaceous Earth, Calcium Sulfate, Vitamin E Supplement, Sulfur, Choline Chloride, Soluble Kelp, Soluble Humates, Humates, Manganese Sulfate, Manganese Protein, Zinc Sulfate, Zinc Protein, Sodium Selenium, Vitamin A Acetate, Vitamin D₃ Supplement, Vitamin B-12 Supplement, Zinc Oxide, Biotin, Copper Sulfate, Dried Kelp, Calcium Sulfate, Copper Protein, Niacinamide, Riboflavin, Pyridoxine Hydrochloride, Calcium Pantothenate, Ethylene Diamine Dihydroiodide, Cobalt carbonate, Thiamine Mononitrate, Folic Acid, fermentation products of *A. oryzae* (Alpha-amylase & Protease), *B. subtilis*, *L. acidophilus*, *B. thermophilum*, *B. longum*, *E. faecium*, *A. niger* (Lipase), *T. longibrachiatum*, Mineral Oil..

WHY NON-GMO (genetically- modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
