

Balanced Nutrition for the Metabolic
Performance Horse

Achiever Grow™

Ration Balancer

Daily Dose Equine® is always innovating!

No Soybean Meal, No Wheat, No Corn, No Molasses

Achiever Grow is an oat-based nutritional product for broodmares, foals and youngsters up to the age of 3. The product provides all of the nutrition needed for healthy growth. To be fed with additional oats if needed. Contains both timothy and alfalfa hay.

- **Timothy & alfalfa** – Premium quality fiber and digestive health and steady energy.
- **Oats** provide a range of essentials amino acids (protein) and this product is fortified with L-Lysine.
- **Canola oil** – clean fat with a balanced 2:1 Omega-6 to Omega-3 ratio to support skin, coat and metabolic function.
- Elevated, **balanced nutrition** elevated to feed the growing performance horse.

Simple Feeding. Strong Results.

- Feed 4 lbs daily per 1,100 lbs of body weight for lactating mares
- Feed 1.6 lbs/day for weanling
- Feed 2.2 lbs/day for Yearlings
- Feed 3.5 lbs/day for a 2 year old. Always offer clean water and good forage.

No GMOs, No Ionophores, No Nonsense.

Achiever Grow™ keeps it simple, clean, and effective—so your youngster grows strong and correct.

WHY NON-GMO (genetically- modified) INGREDIENTS?

Daily Dose Equine® LLC sources non-GMO ingredients in all its feeds to eliminate herbicide contamination. GMOs were originally developed to increase crop yields through the application of herbicides such as RoundUp (glyphosate). In the United States,

This chemical is now present in breakfast cereal as well as in products for our pets and equine partners. Continuing research is exposing glyphosate as a cause of digestive issues based on its antibiotic action on good gut bacteria. As a chelator, glyphosate removes important minerals for the horse and interrupts hormonal communications within the body.
